

We make the toughest, best-built industrial dust collectors in the industry!

# Gold Series

## FARR

Powerful Cleaning System to Provide Long Filter Life

Pulse Discharge of Gold Cone™ Filter

#### Easy Access Door

- No Knobs To Lose or Drop
- No Threads To Bind
- Mechanically Attached Seal
- Heavy 10 gauge Construction
- Lock-Out/Tag-Out Capability

#### FDC Controller

##### Automatic Filter Cleaning

The Farr Dust Collector (FDC) Controller's flexible design allows it to be adapted to many dust collector configurations.

**Gold Series® offers modular design for optimum flexibility—delivered fast!**

"We are very happy with the Farr Dust Collector. The dust collection solution was purchased for our CNC plasma cutter to replace a horizontal cartridge dust collector due to short filter life. The current filters have been in for over a year and still look great and are operating on less than 3" pressure drop. Also, the Farr people have been a pleasure to do business with."

— Dan Schuler, Schuler Manufacturing

#### Gold Series® Features

- Modular design for optimum flexibility—have it your way fast!
- Each module accommodates airflows up to 5,000 cfm
- Module constructed of 7 gauge carbon steel
- Door, hopper, inlet and panels are all 10 gauge steel
- Powder painted for unsurpassed corrosion resistance
- Component configurations are virtually unlimited
- Vertical design of cartridges enables efficient pulse cleaning of dust

#### High Entry Inlet

Cross flow is created through the filters. Eliminates upward "can" velocities associated with traditional hopper inlets.

#### Easy Change-out

Gold Cone™ Cartridge with patented Cambar action that positively seals the cartridges without using threads or knobs.

Optional Quick Open View Port in Hopper

Farr APC is a proud member of the Camfil Farr group.

#### Easy Maintenance

The service benefits are numerous. A heavy gauge access door uses an easy-to-use lift cambar in place of the usual threaded handle, facilitating entry into the collector. The door is fully-reversible for access from either side and has an exclusive lock-out feature for worker safety. Cartridge service is further simplified through a cambar system that allows faster, trouble-free change-out.

#### Individually Powder Coated

Gold Series components are individually powder coated prior to assembly for superior corrosion resistance.

#### Gold Series® Options

- Explosion Venting
- Rotary Airlock
- Drum Cover Kit
- Quick Open Access Panel in Clean Air Chamber
- Custom Colors
- NEMA 7/9 Solenoid Enclosure
- Increase Leg Length
- Hopper Access Door
- Sprinkler Coupling
- Dust Level Indicator
- Dust Bin w/Drawers
- Common Trough Hopper
- Large Pyramid Hopper
- Stainless Steel Construction
- Various Inlet Designs
